

SERRA TERROR ROUTE MAPS

Southern Grampians
Saturday 10 & Sunday 11 June 2023

Please note:

- Distances and elevations vary with different tracking devices and should be used as a guide only
- The routes are correct as at time of publication however are subject to change by management in exceptional circumstances
- The maps attached are a guide only.
- You **MUST** download the AVENZA MAPS App and use this mapping system whilst on route. This will provide you with your exact location in relation to the route

DOWNLOAD SERRA TERROR ROUTE MAPS Using AVENZA MAPS APP

The Serra Terror event will follow the Grampians Peaks Trail (GPT) for most of the course. The course will defer from the GPT on Sunday in sections and after Checkpoint 5 participants will be led along the Stockyard Track to the final Checkpoint and the Finish line.

Yellow ribbon markers, yellow ear tags, and Serra Terror arrows will be placed on route to enhance the Grampians Peaks Trail markers. Where the Serra Terror course defers from the Grampians Peaks Trail the Serra Terror markers will take precedence.

All participants and support crew are to please install the Avenza maps app on their phone and download the Serra Terror course maps prior to the Serra Terror weekend.

Please follow these directions:

1. First, you will need to download both the Avenza Maps app and the Dropbox app to your phone.

Avenza Maps

Dropbox

2. Once you have done this, please click on the link below:

SERRA TERROR ROUTE MAP: [CLICK HERE](#)

(if you try and open this file you will not be able to see any content as it is a .gpx file)

Then...

3. Click on the 3 dots in the top right-hand corner to save the map to your Dropbox (or click on save to my dropbox at the bottom right of your screen if you already have a drop box)
4. Create a Dropbox account as instructed
5. Open the Avenza App & create an account (it's free)
6. Go to the OSM Basemap and click on Try now
7. Click on the  (layers) symbol at the bottom of the screen
8. Click on the + symbol in the top right corner, then Import Layers, then From Dropbox
9. Select the Map from your Dropbox and click on Import in the bottom left corner. It will take a few seconds to import
10. Close this screen (top right has close button)

Now when you go back to your OSM Basemap, the Serra Terror section will be displayed along with your coordinates, and you can see your location relative to the route
